

IN THE SPECIFICATION

The following paragraphs are rewritten pursuant to 37 C.F.R. §1.121.

1. Replace the paragraph beginning at page 1, line 14 of the specification with the following paragraph:

Lottery games have become popular in many jurisdictions in the United States and elsewhere. As used in this disclosure a "lottery game" is a game that is played with a set of predefined game records or tickets, each game record or ticket representing a chance in the game. Each game record or ticket is associated with a result or outcome in the game. Some results represent wins in the game and call for the player to receive cash or other prizes, while other results provide no payout.
